Director's Review

The year 2004 marks the eighth year PSA has been in operation and my second year as Director. The year saw PSA hosting the Colombo Plan Staff College (CPSC) In-Country Programme – 'Entrepreneurship Development in TET'. We also co-hosted the 2003 Staff Excellence Award Ceremony and the 'Hari Bertemu Pelanggan', Ministry of Higher Education. PSA also became the venue for the exchange of ideas and developments in technical education, with international guests from Saudi Arabia, Pukyong National University, South Korea and African Ministers of Education, UNESCO, IICBA, World Bank and ADEA.

PSA also added two more feathers to its cap by becoming the champion in the Quality Co-op Award in the category of 'Koperasi Dalam Bandar'. We were also awarded third place in the Landscape Competition organized by Shah Alam Municipal Council.

Despite our busy schedule, we have found time to restructure the organization. Hence, the theme for this year's Annual Report – "Dawn of a New Era through Restructuring and Realignment". The restructuring and realignment exercise will lessen bureaucracy and pave the way for more effective communication. It will also further strengthen our foundation, putting PSA in a better position to compete in the 2005 Prime Minister's Quality Award. The task of putting into place the parts of the jigsaw will also set the stage for PSA's preparation for the re-assessment audit in 2005.

On the macro level, I am confident that the adjustments made in our organization possess the potential to enable us to better focus on the needs of our customers namely the Ministry of Higher Education, students, parents, and the community at large. I wish to take this opportunity to thank the Polytechnic Management Division and our Advisory Board members for their continuous support. My heartfelt thanks also goes to each and every one of my staff for having made significant contributions to the organization.

Together Everyone Achieves More – T.E.A.M.
