Director's Review

As we approach 2004, I feel it is appropriate to reflect on the happenings in Politeknik Sultan Salahuddin Abdul Aziz Shah (PSA) in the year 2003. We have had another busy and exciting year. 2003 witnessed a series of positive events and activities. For starters, the extension of our MS ISO 9001: 2000 certification marked another step forward for us, testifying that PSA is consistently changing for the better, driven by our slogan "Commitment Towards Excellence". In addition, PSA competed for the prestigious *Anugerah Kualiti Y.A.B. Menteri Besar (AKMB)* and received the grand prize for *Anugerah Kualiti Y.B. Setiausaha Kerajaan Negeri Selangor*, in recognition of its achievements.

Beyond PSA, we have forged closer links with the outside community when we played host to Petronas's Street Smart exhibition for 3 weeks. In addition, we were fortunate to be given the opportunity to welcome visitors from The British Council, Seameo-Voectech and many others.

Throughout 2003, the management of PSA has also been extremely busy strengthening and implementing our existing policies, while improving our facilities and environment to ensure that it is comfortable for both students and staff alike. This is especially apparent at the Training and Continuing Education Department (TACED) as it is the 'bridge' that connects PSA to the outside community.

As always, PSA's students demonstrated that the learning process continues outside the classroom when over 2000 of our students took part in a gathering at Bukit Jalil to show support for the "Malaysians for Peace Assembly". It is this spirit of *togetherness* that we hope will continue to exist years after our students have received their diplomas.

As we enter the year 2004 I remain enthusiastic about our institution's present and future. With the ever continuing support from the Polytechnic Management Division, our Advisory Board members, staff, students and local community, I am optimistic about our future and continue to have great pride in PSA and all the people associated with it. My sincere **Thank You** for your continuous support, commitment and hard work!

Amir bin Md. Noor AMP
Director

Director

En. Amir Bin Md. Noor AMP

En. Amir Bin Md. Noor, Director of PSA, has a string of degrees to his credit. He holds an Honours degree in Civil Engineering from the University of Dundee, Scotland, a M.Sc. in Highway Engineering from the University of Birmingham and a Diploma in the Management of Technical & Vocational Education & Training from the University of Lund, Sweden. His 21 years of service has not been confined to academic work alone. From his first lecturing post in Politeknik Ungku Omar, he has moved on and successfully taken on various other roles. He has held the post of Educational Attache' (Malaysian Students Dept.), The Office of High Commissioner for Malaysia. He has also been appointed Acting Director, MSD, London. Upon his return from London, he served as Deputy Director, Technical Education Dept. His last post, prior to his taking office at PSA, was Director of Politeknik Port Dickson.

En. Amir strongly believes that co-curricular activities play an important role in an individual's holistic development. Hence, he is equally active in this area. He is recognized as a World Taekwon-do Master and holds a black belt (7th degree). He is actively involved in the Malaysian Global Taekwon-do Federation. En. Amir was awarded the Darjah Ahli Mahkota Perlis (AMP) in 1999 in recognition of his services in the field of education.

Deputy Director

En. Abdul Karim Bin Jaafar AMS

En. Abdul Karim Bin Jaafar's 17-year educational experience has taken him from lecture room to the Technical Education Department, Ministry of Education. Previously the Head of the Electrical Engineering Department, En. Abdul Karim completed his first degree in Electrical Engineering and Masters in Electronic Engineering (Medical Systems), both from the U.K. In recognition of his skills and experience, En. Abdul Karim was elected Project Manager for the development of the Polytechnic Management Information System (PMIS) in 2003. Due to his outstanding contributions and services, En. Abdul Karim was awarded the Darjah Ahli Mahkota Selangor (AMS) in 2002.

Mechanical Engineering Department

The Mechanical Engineering Department of PSA has posed itself to produce semi-professionals who will be able to help in the nation's economic and infrastructure development. The department is currently offering both Diploma and Certificate level courses in Mechanical Engineering (General) and Mechanical Engineering (Packaging). The total enrolment consists of 670 students, 403 pursuing diploma level courses and 267 pursuing certificate level courses. The pool of experienced and well-qualified academicians, which currently stands at 58, are constantly undergoing courses and training to up-date themselves on the latest technological developments. This ensures that lecturers will have innovative and challenging ways of delivering the curriculum so as to promote and encourage increasing intellectual independence.

The 'virtual factory' found in this department is worth approximately RM 22.1 million. Lecturers and students in this department are exposed to sophisticated softwares which include CATIA, Master CAM, Solid Work, Auto CAD, Mechanical Desktop and 3D studio. Students are also given hands-on-experience in the use of CNC milling, CNC lathe and wire cut machine and Packaging machine. The department's facilities also include workshops and laboratories for electro-pneumatic, welding, machining, moulding, packaging, plant and CAD/CAM. Hence, students are put through the real process of design and manufacturing. Provisions have also been made to test materials. The Universal Tensile Machine capable of testing steel up to 100 tons, Rockwell, vickers and shore and Non-Destructive Testing are also available.

The existence of these equipment and technology and the exposure students get, testify to the importance placed on the practical aspects of these certificate and diploma courses. Graduates are therefore armed with the necessary technical competence to keep abreast with on-going developments in their respective fields of specialization, enabling them to respond to tomorrow's challenges today.

Electrical Engineering Department

Electronics, which is revolutionizing the way we work and live, is a fast-paced industry, which offers high-caliber graduates vast opportunity for career development. The Electrical Engineering Department of PSA is determined to play a key role, producing semi-professionals with the expertise to survive in this rapidly expanding telecommunication industry. The Electrical Engineering Department is presently conducting courses in three areas namely, Electronic Engineering (Telecommunication), Electronic Engineering (Control) and Electronic Engineering (Medical) both at Certificate and Diploma level. PSA is the only polytechnic in the country offering the Medical Electronic course. The total student enrolment in this department currently, stands at 1373, with the latest intake of 548 for the 2002 Second Session and the 2003 First Session. These students are not only taught by a pool of dedicated, committed and highly qualified staff, but they also have the advantage of having hands-on-experience in well-equipped laboratories and state-of-the-art workshops. The Telecommunication Laboratory is equipped with Computer-based Trainer (CBT) in Analogue, Digital and Fiber Optic Communication while the Data Communication Laboratory is equipped with workstations, complete with network system, capable of running four different operating systems. This laboratory is also equipped with an Integrated Service Digital Network (ISDN) Exchange Trainer.

The Instrument and Control Laboratory is similarly well-equipped with Process Control Plant, PLC Trainer, servo Trainer, Transducer Trainer and an Industrial Robot Trainer. The Programming Laboratory is equipped with workstations and servers and is utilized for programming languages such as C, Pascal, Assembler and other high level languages. In addition, this laboratory is equipped with electronic workbenches to carry out circuit design and experiment electronic circuit. The Programming Laboratory is also equipped with facilities for Electronic Computer Aided Design (ECAD). This state-of-the-art computer laboratory is used for PCB design and fabrication. In addition to that, thin and thick film design can be produced using Mentorgraphics software running on SUN/Unix workstation. The pride of this department are the state-of-the-art Medical equipment and trainer in the Clinical, Imaging and Medical Electronic Laboratories. A 10-fully network Computer-based Trainer workstation in Biomedical Instrumentation & Principle is capable of providing Medical Electronic students practical hands-on training in medical instrumentation, eg. Bio-medical amplifier, transducer, filters and displays. The Electrical Safety trainer Defibrillator trainer, pectrophotometer trainer, a 5-instrumentation trainer workstation, multi-parameter simulators, spirometers, electronic stathoscope, hemodialysis machine and ultrasound scanner etc.

Hence, it can be seen that the state-of-the-art facilities available in this department fully prepares graduates to face the challenges in their future workplace.

ivil Engineering Department

World-wide industrial growth over the past few decades pose new challenges for those in the world of civil engineering. From the economic viewpoint, they have to build more at lower cost, politically, they have to build before the technology is available and all these have to be in tandem with their social responsibilities. The Civil Engineering Department of PSA which offers three major courses namely Construction, Building Services Engineering and Wood-based Technology has poised itself to produce this new breed of technicians which will meet the challenges present in the new environment by having a very up-dated curriculum and a pool of knowledgeable, experienced and committed personnel.

The required courses cover structural analysis, steel design, soil mechanics, construction estimating, wood technology and building services. The comprehensive Wood-based Technology program at PSA addresses the national need for highly trained wood technology technicians which will be an asset for all recruiting firms and agencies in the nation. The construction program which is nationally recognized is very engineering oriented. It supplements traditional classroom work with hands-on experience with an employer in the field. Academic advisors are also available to help students plan their academic courses. This practical training is vital in laying the foundation for students' future progress.

From the human resource point of view, the current 740 diploma and 469 certificate level students are taught by a pool, consisting of 64 committed and experienced lecturers, many of whom possess post-graduate qualifications. These lecturers continuously update themselves by attending short courses on Construction Management, CNC Woodwork and Air Conditioning.

Thus, it is evident that the staff, curriculum and facilities available here, will deliver to the industry, technicians, capable of offering highly professional services.

ommerce Department

With the advent of WTO trade liberalisation and globalisation, the Commerce Department's committed to produce graduates who are capable of performing and competing at the highest level. Its students are not only equipped with the latest ICT skills but also entrepreneurial skill to enable them to take advantage of the K-economy.

The department presently offers 4 diploma level courses namely Business Studies, Insurance, International Trade and Marketing and 2 Certificate level courses namely Business Studies and Tourism. It has an enrolment of 1216 students and a staff strength of 70 lecturers. Besides classroom based lectures, other methodologies such as seminars, case analysis, project and hands-on assignment are being utilized in the teaching learning process. PSA's strategic location in the Klang Valley enables the department to invite distinguished speakers from the businesses and industries to give talks to its students.

In its strive for excellence, the Commerce department runs various continuous improvement programs to enhance the students performance. Programs like peer-tutoring utilizes the better performing students to coach the weaker students in quantitative subjects such as statistics, Mathematics and Accounting with the supervision of lecturers. Teaching and learning clinics are also been held to impart valuable skills like note taking and smart learning.

To enhance the competitiveness of its students in the job market, the Commerce Department conducts the UBS Computerised Accounting and Payroll course and about 500 students have successfully completed the course. The Commerce Department students not only excell academically but have proven that they are equally good in sports by winning the Inter Department Athletics Meet for the second time in a row.

The high commitment of its staff and foresight of the department will ensure that its students will continue to excel and perform to its fullest.

General Studies Department

The General Studies Department comprises the English Language Unit, the Islamic Education Unit and the Moral Education Unit. This department is responsible for conducting English Language courses (English for Specific Purposes) as well as Islamic and Moral education for the student population of PSA.

The English Language Unit focuses on producing students who are proficient in the English Language to enable them to communicate effectively both socially and at their workplace. The three sophisticated language laboratories and the Self-Access Center provide ample opportunities for the students to practise their oral-aural skills as well as to improve their language proficiency.

In order to stimulate students' interest and inculcate a love for the language, English Language Remedial Programs, a MUET clinic, English-In-Camp and Inter-Department Choral Reading Contests have been carried out. Students are also encouraged to contribute articles towards the production of the English Language Bulletin, an in-house news magazine.

The Islamic and Moral Education Unit design activities aimed at all-round personality development of the individual. Talks touching on Islamic/Moral issues, Inter-Department Tilawah Al-Quran competitions, PAFA evaluations, forums, workshops and short courses have been successfully carried out in the year 2003. The 'takzilah', aimed at imparting religious discourse to all Muslim staff, is carried out every Friday.

The General Studies Department is also actively involved in the Time Sector Privatisation (TSP) programs. This department is currently conducting courses, namely, English for Communication and Islamic Education for CIAST and English for Technical and Commercial Purposes for PSA's part-time students.

Mathematics, Science & Computer Department

The aim of this department is to provide quality facilities and training programs to the staff and students of PSA to enable them to become competent in the application of computer-based technology in their day-to-day duties. It also runs customized training programs and at the same time, is the channel for the latest innovations in the field of Information Technology.

An innovation Center, 'The Link' serves as a center for the staff to equip themselves with the latest developments in Information Technology. The knowledge gained will form the basis for the development of instructional materials. Some of the courses conducted during the year 2003 were Microsoft PowerPoint, Microsoft Word (Adv), Microsoft Excel (Adv), Ms Access (Adv) and Microsoft FrontPage. 74 staff were trained in the year 2003. PSA, having been appointed Cisco's Academy Training Center (CATC) for the central region, functions as a training and support center for local academies and disseminates instructional and program quality standards set by Cisco and the CATC. Two of PSA's lecturers were sent to China and Singapore to be trained as regional instructors. PSA's staff and students will be given training on-line in computer networking with the implementation of this program. PSA has also been the Authorized Autodesk Training Center since 2000. A total of 311 students have been trained in the year 2003. There are four laboratories, each with 43 Pentium-based multimedia computers, multimedia capable, running under Windows NT 4.0 network operating systems, equipped with 'Just Reboot' hardware. The Autocad and Microsoft Office programs are also available in the laboratories. PSA is linked to the Internet via 256KBps leased line connected to TMnet. The campus network backbone, which has 155MBps ATM and 3 3COM CoreBuilder 7000, is used in order to have some degree of resiliency.

Total Campus Management System (TCMS) application is used to complement the Campus Network System as well as to facilitate the day-to-day operations of PSA. TCMS automates admissions, processes academic records, student billings, students services, library management and hostel management. The Campus Network System together with the TCMS forms the Digital Network System for PSA.

Training & Continuing Education Department

This department acts as a one-stop center for industrial collaboration between the polytechnics and outside agencies. TACED is the 'middle-man', ensuring smooth communication between PSA and the industry. The good rapport that exists facilitates students' industrial placement, where students are placed in suitable outside agencies to enable them to put into practice the knowledge and skills acquired during lecture time. A total of 1807 students have been placed on the mandatory six-month Industrial Attachment for the year 2003.

In line with the philosophy of life-long learning, TACED has initiated a number of customized courses between PSA and companies in the private sectors, thus providing opportunities for working sub-professionals to upgrade their skills. Part-time courses are also available for ex-polytechnic certificate-level graduates. These tailor-made as well as the part-time courses, which are carried out under the banner of Time Sector Privatisation (TSP), allow working sub-professional to be gainfully employed, yet have the chance to upgrade their qualifications.

This department assist PSA's graduates in finding jobsthrough its web-site www.geocities.com/jlpl_psa_2000.

Student Affairs Department

The main responsibilities of this department are handling student intakes, management of students' data, co-curricular and sports activities and matters related to scholarships. The 23-member team, comprising lecturers from various disciplines, play an important role in planning, implementing and monitoring all students' programs which aim to enhance their personal growth as well as lend support to students' academic achievement.

Co-curricular and sports activities have been given the equivalent of 1 credit hour to impress upon students the importance of such activities in character development. Hence, it is compulsory for semester one and two students to attend the weekly co-curricular activities. Effective from June 2003, the Students Representative Council (Jawatankuasa Perwakilan Pelajar) and matters pertaining to students' discipline are handled by this department.

Human Education & Development Department

This department has been formed primarily to undertake the planning, organizing and implementation of human development programs. The vision of this department is to set up training programs aimed at developing the human potential of the staff and students of PSA, thus contributing towards the betterment of the outside community. The management realizes that personal quality, in terms of human potential development is critical to the quality of any organization. Organizational excellence means excellence in each individual member in the true sense of the word, ie. physical, mental, social and spiritual development.

In addition to that, this department also handles the Customer Relations Day which is held every second Saturday of the month. The aim of this program is to receive feedback on strengths and weaknesses of the system from the various clients, comprising students, parents, staff and the community at large.

The ultimate aim of this department is to set up a training academy which will act as a center of human development, not only for PSA, but also other institutions of higher learning.

Administration Department

The administration department is 'the pulse of PSA' as it provides the framework to ensure the smooth running of the whole organization. Besides general office administration, issues related to finance, staffing and terms of service, purchase of equipment, scholarships/loans and maintenance come under the jurisdiction of this department.

The department has a staff strength of 43 to cope with the increase in the overall staff and student population of PSA.

2003 Commitment Towards Excellence

2003 has been another eventful and rewarding year for PSA in its journey towards excellence. PSA once again got clearance from SIRIM on 4 August and retained its MS ISO 9001 : 2000 status for the fifth time. This achievement clearly shows that the staff of PSA remains united, regardless of changes at the helm as well as in the Quality Working team, in its mission to perpetuate a quality work culture in the organization.

Benchmarking has always been given top priority by PSA in its continuous efforts towards upgrading its quality system. PSA made a benchmarking visit to the Faculty of Science and Environmental Studies, Universiti Putra Malaysia (UPM) on 3rd July with a two-fold aim. Firstly, to identify tested and proven practices applicable to PSA and secondly, to adapt criteria used in the Malcolm Baldrige and Prime Minister's Quality Awards so that it can be used as a point of reference in PSA's day-to-day operations.

2003 was also significant as PSA's new Quality logo and the new edition of the Quality manual was launched during this year. The launching is symbolic of yet another step in instilling greater awareness towards a Q- work culture. PSA added a few more feathers to its cap when it emerged the winner for the Selangor State Secretary's Quality Award (Anugerah Kualiti Y.B. Setiausaha Kerajaan Negeri Selangor) and won a special award in the 'Penyeretaan Warga kerja ' category. It was also the winner for the 'Program 3K' & Workshop Management at the Annual Polytechnic Quality Awards Ceremony. Above all these, six members of PSA's staff came top of their respective category at the Annual Polytechnic Quality Award (Best Engineering Lecturer, Best Accountant, Best Assistant Librarian, Best Driver, Best Accountancy Lecturer) In concluding, it is evident that 'Commitment Towards Excellence' is not an empty catchphrase where the management and staff of PSA is concerned. The slogan is the very pulse of PSA.

PSA's staff at the AKMB Award Ceremony

Quality pin-featuring the new logo

Industrial Collaboration

Industrial collaboration between the educational sectors and industries is of great importance in the realization of vision 2020. PSA is amongst some of the higher institutions of learning which have played an active part and have contributed towards providing world class standard education & training for sub-professionals in the fields of engineering and business.

PSA's networking with the industrial sector has resulted in a total of 3135 companies throughout Malaysia becoming the training ground for its students during their mandatory 6-month industrial attachment. The training is of utmost importance in helping students understand the actual working environment, besides allowing them to put their theories into practice. The year 2003 alone saw 1767 students being sent out for their industrial training.

PSA has also provided information regarding job opportunities through the web-page www.geocities.com/jlpl_psa_2000. 90 companies offered jobs for ex-polytechnic students for the year 2003. This number represents an increase of 11%, compared to the year 2002. This increase augurs well for PSA.

Industrial alliances have also given ex-polytechnic certificate level graduates the opportunity to further their studies through the Part-Time Study Program which was launched in June 2000. Statistics reveal that a total of 443 of students have enrolled for this program. Collaborative programs that have been put together by PSA to-date include the Mechatronics Diploma course (for MEDEM / MECOM in 1999), Braze Welding (for The Federation of Malaysian Manufactures (FMM), and the Computer Networking System (for CISCO).

PSA's academic-industrial bonds have also ensured the continuation of PSA's program for the lecturer's industrial attachment which is now in its 5th year. A total of 24 lecturers have been sent out on these industrial attachment programs to-date. These industrial attachments have equipped the staff with invaluable input for curriculum design and review of existing courses.

The strong industrial relationship that exists serves as a positive indicator that more industries will become PSA's 'partners in training' so as to help the nation in its quest to become a fully industrialized nation by the year 2020

Time-Sector Privatisation

The Time -Sector Privatisation Program (TSP) is a program where outside agencies, both private and public, can utilize the polytechnic's existing facilities and human resource to train their staff.

Besides, helping the nation achieve its mission to produce more sub-professionals in the fields of engineering and business, it also provides opportunities for the polytechnic to develop useful linkages and become financially independent.

PSA has started initiatives to reach out to meet industries' needs. Customized courses, for example, Braze Welding and Brazing and Mechatronics are being conducted for FMM and MECOM Shd. Bhd. Cooper and Silver Brazing and Brazing are being held for Syarikat Zanwa sdn. bhd. and OYL Condair. Computer Networking system courses are also being conducted for CISCO.

Part-time programs aimed at giving certificate level graduates of all Malaysian polytechnics the chance to upgrade their knowledge, skills and professional qualifications while working, are also available. Polytechnic Sultan Salahuddin Abdul Aziz Shah is the first polytechnic to offer part-time programs.

The success of its first intake of 92 student in June 200 has triggered other polytechnics to initiate similar programs. The diploma courses offered at PSA namely Diploma in Civil Engineering, Mechanical Engineering. Electronic Engineering and Diploma in Business Studies have attracted both young and matured students throughout the country. The total enrolment for these courses currently stand at 443.

Awards and Recognition

First Place, Selangor State Secretary's Quality Award (Anugerah Kualiti Y.B. Setiausaha Kerajaan Selangor) (December, 2003)

Our goal, at PSA, is to provide quality education that is relevant to the country's economy and industry while meeting the aspirations of our students and working professionals currently undergoing part-time courses with us. The management is always seeking ways of creating a conducive and stimulating environment to enhance learning.

In addition, PSA also strives to keep up with its mission statement - "Commitment Towards Excellence" through meeting customers' requirements and ensuring that all work assignments and quality related matters are completed through teamwork and cooperation. PSA's Quality Model for achieving excellence has so far brought numerous results as can be seen in the numerous awards and recognition given.

Technical Education Division's Excellence Award, (3K Program) (October, 2003)

Technical Education Division's Excellence Award on Workshop Management (October, 2003)

A token of appreciation from the Ministry of Housing and Local Government in recognition for PSA's continuous support of the national recycling program.

Co-operative Quality Award

Links With The Outside World

Petro-Science-StreetSmart Exhibition

Seameo-In Trec 2003 Seminar

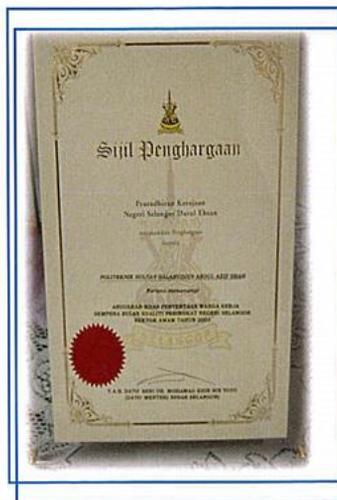

Visitors from Laos at the Medical Electronics Lab

Scholarship

Nearly 80% of PSA's students have benefited from sponsorships by the government or private agencies in the year 2003. The main sponsors are the Ministry of Education (MOE) and the Higher National Education Fund (PTPTN). The Ministry of Education (MOE) offers an interest free education loan for eligible Certificate level students. The Higher National Education Fund (PTPTN) is the main sponsor for loans to eligible Diploma level students. Since June 2002, the Department of Public Services (JPA) has also granted scholarships to selected PSA diploma-level students.

Official Functions and Protocol Committee

The committee, which was set up in 1998, has been entrusted with the sole responsibility of handling the polytechnic's official functions. Hence, it is this committee which plans and executes the required protocol observed in receiving visitors, seating arrangements and other administrative matters pertaining to protocol. The annual Convocation Ceremony is also handled by this committee.

Customer Relations Day

Customer Relations Day is held every second Saturday of the month. The aim of this program is to receive feedback on strengths and weaknesses of the system from the various clients, comprising students, parents, staff and the community at large. Through these constructive feedbacks, efforts are made to enhance the system and services provided to the clients. This channel is used for face-to-face interaction with clients.

The Convocation Survey

The start of 2003 saw the Convocation Survey project co-ordinated by the Economic Planning Unit, Prime Minister's Department. For the first time, a standardized questionnaire was used by all public and private higher educational institutions, including all polytechnics throughout Malaysia in this 2003 Convocation Survey. This project aims to study PSA's 2003 graduates in order to ascertain the perception of these graduates on the relevance of the polytechnic curriculum, quality of instruction and career counseling and the degree of relevance of the information available for graduates who are pursuing further studies.

The findings from the Convocation Survey indicated that most of the graduates found employment about two months upon graduation. 65% of the 884 respondents were mainly employed in the manufacturing sector. 54% of this figure were employed on a permanent basis. In fact, the majority of the respondents gave favourable feedback regarding the programs available at the polytechnic as it covers current issues as well as the K-based economy.

The collection in PSA's resource centre covers printed materials and non-printed materials on subjects related to the courses offered at the polytechnic. ILMU (Integrated Library Management Utility) and a computerized circulation was implemented in June 2001 to ensure smooth running of the centre's daily operations. The centre also provides a Web OPAC service, which allows information stored in the centre to be accessed by students and staff from any computer terminal throughout the campus.

The library houses the Multi-media room where students have access to RM 1 million worth of electronic visual aids which includes 10 computers, CD-ROMs, VCDs and diskettes on a variety of subject matters.

The centre also regularly exhibits its new books and electronic resources to make users aware of its ever-expanding reservoir of information. Short courses have also been conducted for members of the Library Club to provide them with the needed skills to search for information through the internet. Other activities include organising study tours to other academic libraries as well as playing host to visitors from other polytechnics and institutions of higher learning.

Koperasi Politeknik

Sultan Salahuddin Abdul Aziz Shah,
Shah Alam Berhad

Koperasi Politeknik Sultan Salahuddin Abdul Aziz Shah, Shah Alam Berhad (KOPSA) started its operations on 30 July 1977. It is managed by a Board of Directors which consists of 15 members. The day-to-day operations are manned by a team of 2 managers and 10 staff. From operating the mini-market in its early days, today KOPSA has widened its business horizon to include running a photocopy centre, providing Smart Card services and also the Students Computing Assistance Centre (which consists of 3 cybercafes).

Besides managing students' registration and allocation of funds to the relevant departments and units in PSA, it is also entrusted with the supply of essential items such as jackets and blazers etc, for new students during the Orientation Week (Minggu Wawasan Siswazah). KOPSA is also involved in the management of the operational accounts of the various clubs and societies in the polytechnic.

KOPSA's efforts in serving the polytechnic community did not go unnoticed. On 29 July 2003, in conjunction with the Cooperative Excellence Day, it was awarded the 2003 Best Services to Members Award for the Klang/Shah Alam region. Furthermore, it was also nominated for the Selangor Excellent Cooperative Award held on 17 September 2003.

Staff Contributions

Director

En. Amir bin Md. Noor AMP

(Director)

- i. Chairman, Examination Committee of Malaysian Polytechnics
- ii. Chairman, Organising Committee for the Polytechnic Excellence Award
- iii. Deputy Secretary General - Malaysian Global Taekwon- do Federation
- iv. Member, Board of Certification and Awards, Technical Education Department
- v. Chairman, Malaysian Community College Review Committee

Deputy Director

En. Abdul Karim bin Jaafar AMS

(Deputy Director)

- i. Project Manager-Development of Polytechnic Management Information System
- ii. Accreditor, National Accreditation Board (LAN)
- iii. Working Paper for Regrouping of Technical Education Department

Mechanical Engineering Department

En. Sharnol bin Mustapa

- i. Module Writing Com. for Polytechnics.

En. Mohd. Fuaad bin Fesul

- i. Curriculum and specification Writing for Community Colleges.

En. Rudy Adrie bin Idris

- i. Module Writing Com. for Polytechnics.
- ii. Member of National Symposium for Tech. & Voc. Edu & Training (NCTVET)

Norliza bt Kasim

- i. Module Writing Com. for Polytechnics.

En. Arman bin Hashim

- i. Module Writing Com. for Polytechnics.

En. Armanjaya bin Amirullah

- i. Module Writing Com. for Polytechnics.

En. Razali bin Bakri

- i. Module Writing Com. for Polytechnics.

En. Redza Izwan bin Abdul Rahman

- i. Module Writing Com. for Polytechnics.

En. Mohd Zulkarnaen b. Mohd Ibrahim

- i. Module Writing Com. for Polytechnics.

Electrical Engineering Department

En. Zunuwanas bin Mohammad

- i. Co-ordinating Com. Member for Electrical Eng. for Polytechnics
- ii. Co-ordinating Com. Member for Bridging Module for Community Colleges.
- iii. Committee member for Module PSA

Shaliza Bt Shahril

- i. Module Writing Com. for Polytechnics. –Computer Aided Design 1

En. Idris Bin Kamaruddin

- i. Module Writing Com. for Polytechnics.s –Computer Aided Design 1

En. Abu Bakar Hafis B Kahar

- i. Module Writing Com. for Polytechnics.s – Imaging

En. Raja Intan Zarina Bt Raja Zaki Hashim

- i. Module Writing Com. for Polytechnics. – Imaging

Ku Lee Chin

- i. Module Writing Com. for Polytechnics.s – Physiological Measurement

Rosmawati Bt Othman

- i. Module Writing Com. for Polytechnics.s – Physiological Measurement

Staff Contributions

Civil Engineering Department

Zulkeply Bin Abdul Samad

- i. Accreditor National Accreditation Board (LAN)
- ii. Curr. Com. Member for Building Services
- iii. Equipment & Curr. Com. Member, Community College
- iv. Curr. Com. Member KUITTHO

Ibrahim Bin Hamzah

- i. Module Writing Com. for Polytechnics – Wood-Base Tech.

Jasni Bin Mohd. Nor

- i. Wood-Base Tech. Curriculum Com. Member.
- ii. Equipment Evaluation Committee Member
- iii. Module Writing Com. for Polytechnics –Wood Base Tech.

Norani Binti Karim

- i. Wood- Base Tech. Curriculum Com. Member
- ii. Equipment Evaluation Com. Member
- iii. Module Writing Com. for Polytechnics –Wood-Base Tech.
- iv. Wood-Base Tech. Curr. Review Com. Member
- v. Wood-Base Tech. Curr. Review Com. Member (MTIB)

Abd. Samad Bin Rahman

- i. Equipment Evaluation Com. Member

Rafidah Farah Hanim Abd. Razak

- i. Wood-Base Tech. Curr. Review Com. Member

Roslina Binti Muda

- i. Architectural Studies Curr. Com. Member

Md. Shahril Rabu

- i. Module Writing Com. for Polytechnics-Wood Base Tech.

Saifullizam Abu Bakar

- i. Module Writing Com. for Polytechnics -Wood Base Tech.

Abdul Razli

- i. Module Writing Com. for Polytechnics -Wood Base Tech.

Azizi Mursidy Zainal Abidin

- i. Module Writing Com. for Polytechnics -Building Services.

Fawi Samad

- i. Module Writing Com. for Polytechnics -Building Services.

Commerce Department

En. Mohamad bin Abu Hassan

- i. Visiting Lecturer at University College of Technology and Management Malaysia.

En. Ho Men Boon

- i. National Level Module Writing Coordinator (Commerce & Hospitality)

Siti Khadijah bt. Yusof

- i. Module Writing for Polytechnics – Personal Insurance

Haniza bt. Kandar

- i. Module Writing for Polytechnics – Personal Insurance

Ainiza bt. Silim

- i. Module Writing for Polytechnics – Legal Aspect of Insurance

Norhayati bt. Othman

- i. Module Writing for Polytechnics – Legal Aspect of Insurance

Staff Contributions

Maths, Science & Computer Department

Muhammad Fauzi bin Abdullah

- i. Accreditor National Accreditation Board (LAN)
- ii. Cisco Networking Instructor

Anuar bin Hassan

- i. Curriculum Leader CISCO Academy for PSA
- ii. Cisco Networking Instructor (CCNA) Central Regional
- iii. Cisco QASS for Southeast Asia region

Mohd Rizuan bin Mat Ramli

- i. Cisco Networking Instructor Central Regional
- ii. Accreditor National Accreditation Board (LAN)

Saripah bt. Md Dawot

- i. Cisco Networking Instructor
- ii. PSA ICT Technical staff

Ahmad Azwan Mat Yatim

- i. Cisco Networking Instructor

Khadijah bt Mohd. Noor

- i. Module Translation Com. for Polytechnics – Mathematics

Bryan Hee Tze Keon

- i. Autodesk Authorized Training Center Program Instructor

Siti Rosminah bt Md Derus

- i. Autodesk Training Center Instructor

Lee Soo Leng

- i. Autodesk Training Center Instructor

Mohd Noor b. Din

- i. Matriculation Examiner

General Studies Department

Pn.Wan Nooraini Bt Wan Kamaruddin

- i. Module Writing Com. for polytechnics - English (A4004)
- ii. Examiner, MUET (Oral)

Pn.S. Vicky Sabaratnam

- i. Module Writing Com. for polytechnics - English (A3004)
- ii. Examiner, MUET (Oral)
- iii. Team Leader - SPM 1119 Paper 1 & 2

Bala Saras Pathi Ponnoman

- i. Module Writing Com. for polytechnics - English (A3004)
- ii. Examiner, MUET (Oral)

Aliza A. Razak

- i. Examiner, MUET (Oral)

Azlina Ahmad Kamal

- i. Module Writing Com. for polytechnics - English (A4004)
- ii. Examiner, MUET (Oral)

Hazlina Harumaini

- i. Module Writing Com. for polytechnics - English (A3004)

Nur Hartini Harun

- i. Module Writing Com. for polytechnics - English (A4004)

Marziana Abdullah

- i. Examiner, MUET (Oral & Written)

Ong Tit Suen

- i. Examiner, MUET (Written)

Ngah Fadzilah Abd. Jali

- i. Module Writing Com. for polytechnics - English (A3004 & 4004)

Staff Contributions

Students Affairs Department

En. Nazri bin Idris

- i. Joint organizer for Selection of students for January 2004 intake

En. Muhd Zaki bin Mustapha

- i. Helped Polytechnic Management Division in screening and selecting students for January 2004 intake

En. Muhamad Sani bin Buang

- i. Head of 'Askar Wataniah Platun', 502 Selangor Regiment, Organiser for 'Malaysia for Peace Assembly' in Bukit Jalil

Pn. Zaitun binti Taat

- i. Working Committee for National Day 'March Past' in Putra Jaya

Pn. Roslina Yati binti Mansor

- i. Working Committee for 2003 Tracer Study Report sponsored by Tech. Education Dept. and Economic Planning Unit, Prime Minister's Dept.

Pn. Roshila binti Abdul Mutalib

- i. Working Committee for 2003 Tracer Study Report sponsored by Tech. Education Dept. and Economic Planning Unit, Prime Minister's Dept.

Pn. Zalina binti Mohd Aris

- i. Working Committee for the Ministry of Education's Study Loan Scheme

En Mohd Luffi Azwan bin Ismail

- i. Organiser/Trainer for the Public Higher Education Institutions 'Dikir Barat' team

Human Education & Development Department

Suriati bt. Abdullah

- i. Staff Training and Development Committee, Technical Training Division
- ii. Chief co-ordinator "Malaysians for Peace" Assembly at Bukit Jalil Stadium
- iii. Chief co-ordinator SEAMEO-IntTREC Seminar
- iv. In-House Trainer for Staff Development
- v. Presenter - P & P course conducted in Politeknik Port Dickson

Fatimah bt. Bahari

- i. Assistant Co-ordinator SEAMEO-IntTREC Seminar
- ii. Presenter - P & P course conducted in Politeknik Port Dickson

Vimala Davy

- i. Assistant Co-ordinator SEAMEO-IntTREC Seminar
- ii. In-House Trainer for Staff Development

Roshamimi bt. Faisal

- i. Assistant Co-ordinator SEAMEO-IntTREC Seminar

Khasniza bt. Abdul Karim

- i. Assistant Co-ordinator SEAMEO-IntTREC Seminar

Zanatul Shima bt. Aminuddin

- i. Assistant Co-ordinator SEAMEO-IntTREC Seminar

Azwira bt. Mahmud

- i. Assistant Co-ordinator SEAMEO-IntTREC Seminar

En. Mohamed Suhaimi Aminullah

- i. Motivator and Co-ordinator of student development programs

Rohana bt. Sahak

- i. Assistant Co-ordinator "Malaysians for Peace" Assembly at Bukit Jalil Stadium

En. Shamsul Bahrain bin Haron

- i. In-House Trainer for Staff Development

Staff Contributions

Training & Continuing Education Department

Lim Peng Peng

- i. Secretariat, Working Committee for the Review of Development of Community Colleges.
- ii. Module writer for Malaysian Open Universities

Norhayati bt Ibrahim

- i. Secretariat, Working Committee for the Review of Development of Community Colleges.
- ii. Module writer for Malaysian Open Universities.
- iii. Assisted in preparation of documents for MS ISO 9001 : 2000, Selangor State Education Dept.

Quality and Documentation Centre

Zarinah bt. Awang
