

POLITEKNIK SULTAN SALAHUDDIN ABDUL AZIZ SHAH

**ANNUAL REPORT
2005**

Cover Rationale

Opening New Chapters

The zip opens to reveal a more conducive learning and working environment, with improvements made to existing infrastructure.

The bright tones and the exuberant foliage growth signify the beginning of a new chapter in PSA as it prepares itself to move into the international arena.

Director's Review

"Excellent firms don't believe in excellence – only in constant improvement and constant change".
- Tom Peters -

2005 will go down in the history of PSA as a year which witnessed a great deal of physical development within the campus. 98.18% of the 8.3 million allocated for supplies and services was used to upgrade existing equipment plus improve the original infrastructure. The need to enhance the working environment and provide a more conducive learning environment was a natural result of the phenomenal growth that had taken place since its inception in 1997. It was also the management's response to the findings of the 'Customer Satisfaction Survey' conducted in 2004.

While seeing to PSA's physical development, the management has also paved the way for the implementation of its 2nd phase of 'Strategic Plan for Performance Improvement'. A number of specific areas have been identified for the deployment and expansion of skills, talents and resources which would enable PSA to better serve its stakeholders while simultaneously positioning itself to become a regional centre of educational excellence. One area which has become an important focal point concerns the increasing use of English within the campus. The management has taken the lead to promote its usage by conducting and minuting management meetings in English.

In the international arena, PSA has played a significant role in helping to lay the foundation for future exchange programmes between China and Malaysia. The visit to PSA by Professor Yu from Shenzhen Polytechnic in March was reciprocated by a visit to China by a team of educationists lead by the Minister of Higher Education.

In closing, I would like to stress that PSA has been blessed with a team of committed, dedicated and pro-active staff who have always rallied behind the management. I look forward to another year of us working together as a team to further promote a culture of excellence, innovation and adaptability in our organisation. My heartfelt thanks also goes to the Polytechnic Management Division and the Advisory Board who have always backed us in our continuous journey towards excellence.

Director

"Strategic planning places the fate of the institution above all else".
- Keller, G.-

Management Team

Seated from Left

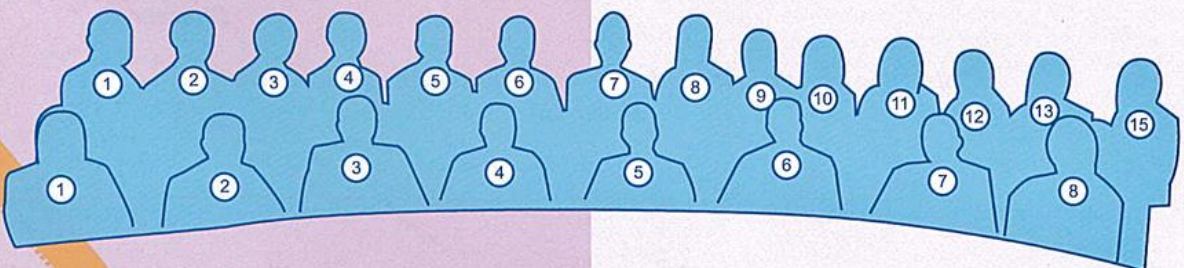

1. Amidah Mohd. Ujang (Head of Maths, Science & Computer Dept)
2. Zulkeply Abdul Samad (Head of Civil Engineering Department)
3. M. Shuhaimi M. Zahari (Head of Mechanical Engineering Dept)
4. Abdul Karim Jaafar AMS (Deputy Director)
5. Amir Md. Noor SMS, AMP (Director)
6. Mohamad Abu Hassan (Head of Commerce Department)
7. Rahmat Jamil (Head of Electrical Engineering Department)
8. Susila Devi Gnanasagaram (Head of General Studies Department)

Standing from Left

1. Nazri Idris BPC [Student Affairs Officer (Intake & Data)]
2. Mohd. Sharoni Ismail (Chief Warden)
3. Ishamuddin Ishak (Building and Maintenance Officer)
4. Zeno Magan (Assistant Accountant)
5. Jasni Mohd. Noor (Chairman of Staff Welfare Club)
6. Ahmad Aftas Azman (Multimedia & Resource Officer)
7. Shamsul Bahrain Haron (Counsellor)
8. Roziyani Zaidon (Quality Manager)
9. Zainah Rujihan (Training and Continuing Education Officer)
10. Aliza Saad (Senior Executive Officer)
11. Wan Atiyyah Wan Din (Examination Officer)
12. Suriati Abdullah (Public Relations Officer)
13. Azlida Abdullah [Student Affairs Officer (Welfare & Discipline)]
14. Masilah Atan (Industrial Training Officer)

Not in Picture

- Muhamad Sani Buang (Sports & Co-Curricular Officer)
 Siti Fatimah Wahab (Librarian)
 Roziah Sama'on (Information Systems Officer)

Management and Leadership

'Organisations need to design their own management function by involving team members and developing their own way of inspiring people to follow them'.

- Michael Maccoby -

The 21st century which is witnessing such rapid advances in technology coupled with the vast amounts of new information exchanged daily, has greatly reduced the ability of a CEO to know more than the sum of his or her subordinates. PSA's management has counteracted this by deliberately involving its staff in the development of strategic action plans to chart the future of this institution, that is, mould it into a centre of educational excellence. This form of participatory management not only allows the management to utilize each individual's knowledge and perspective but is in essence, a key cornerstone of good governance. The leadership at the top has also responded to the needs of the organisation through a restructuring exercise and repositioning its staff, thereby creating opportunities for them to become experts in their niche areas. Transparency and accountability are evident at all levels of the management, as can be seen through the dissemination of information, and discussion of policy issues at the monthly staff assemblies and weekly department/division/unit meetings as well as the internal and external auditing which is carried out on a regular basis.

'Leadership is lifting a person's vision to high sights, the raising of a person's performance to a higher standard, the building of a personality beyond its normal limitations'.

- Peter F. Drucker -

Management & Leadership through.....
Information Dissemination

New Year Message

Director leads in the oath-taking during staff assembly

Leading by example

PSA, co-host of the National Seminar on 'The Development of Technology & Technical Vocational Education & Training in an Era of Globalisation'. Presence of top guns from the Ministry of Higher Education plus local and foreign participation is a tribute to PSA's management & leadership.

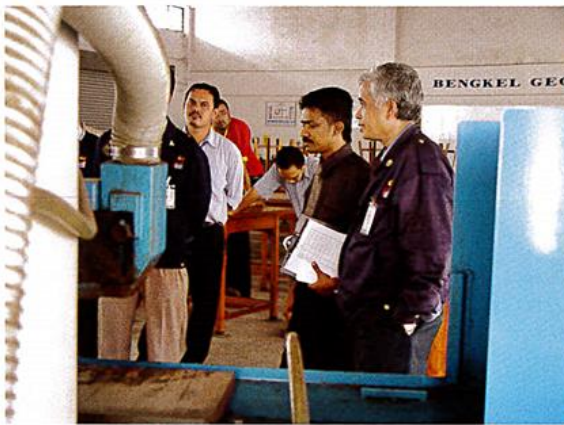

Setting Standards

Auditing the laboratories in the Mechanical Engineering Department.

The Verdict at the end of the 2-day Re-Assessment Audit.

Management in Action

Head of Civil Engineering Department monitoring students during Ops PSA

Strategic Planning Workshop

Staff involvement

Management Review

Keeping track of PSA'S directions

Human Capital

Human Capital

'Only by unleashing the skills of its Human Capital can the organisation hope to thrive in the harsh environment of today's information market'.

- The Star -

PSA acknowledges that optimization of its Human Capital is one of the key factors in determining the outcome of its quest to become a centre of excellence for the training of semi-professionals in the fields of engineering and business. "Knowledge workers" with the necessary skills and right attitude are vital to its procurement as an institute providing world-class education. The management therefore places great emphasis on staff development programmes, which enable their staff to pursue further studies, attend short courses or seek industrial attachment with suitable outside agencies as it is only through enhancing and upgrading the core competencies of its Human Capital can an organisation remain competitive in today's rapid changing technologies. The 'Excellence Service Award', an annual award by the Ministry of Higher Education, is bestowed on staff who have contributed significantly to the organisation.

'Today's preparation determines tomorrow's achievement'.

- anonymous -

Recognition

A showcase of PSA's expertise & participation at the National Seminar on The Development of Technology & Technical Vocational Education & Training in an Era of Globalisation

Director of PSA on 'Lifelong Learning'

PSA staff on 'A Gap Analysis Evaluation Approach in the Professional Development of Technical & Vocational Teachers'

The background features a large zipper on the left side, with the teeth pointing downwards. A diagonal band of a darker color runs across the page, containing the text 'Education & Training' in a light, sans-serif font. In the bottom right corner, there is a faint, stylized illustration of a flower with pinkish-orange petals and green leaves.

Education & Training

'Whatever your discipline, become a student of excellence in all things. Take every opportunity to observe people who manifest the qualities of mastery. These models of excellence will inspire you and guide you toward the fulfillment of your highest potential'.
- Michael Geib & Tony Buzan -

PSA is aware that tomorrow's world calls for people with a genuine depth and breadth of talents - not just formal skills found in engineering, scientific, economic, legal, medical and other professions. As such, the education and training at PSA provide ample opportunities for their under-graduates to acquire softer skills such as effective communication, develop positive attitudes and well-groomed personalities through compulsory participation in the spectrum of co-curricular activities.

'Never tell people how to do things. Tell them what to do and they will surprise you with their ingenuity'.
- Gen. George Smith Patton, Jr. -

Facilities

Facilities

"Books constitute capital. A library book lasts as long as a house, for hundreds of years. It is not, then, an article of mere consumption but fairly of capital."

- Thomas Jefferson

A conducive learning environment and up-to-date facilities are important catalysts needed to fan students' interests and enthusiasm for learning. The recent upgrading exercise which saw PSA spending 98.18% of the 8.3 million allocated for development of infrastructure and maintenance of existing equipment is geared at enriching the learning experience and equipping students to face the world beyond the classroom.

"Every time a student walks past a really urgent, expressive piece of architecture that belongs to his college, it can help reassure him that he does have that mind, does have that soul."

- Louis Isadore Kahn

Industrial Linkages

Alone we can do so little, together we can do so much.

- Helen Keller -

Industrial and international linkages between local businesses and the academic community, whether local or international are crucial in the light of revolutionary changes taking place in today's global economy. The shared knowledge and expertise resulting from such smart partnerships provide relevant input for curriculum design, producing knowledge workers with the required set-skills to meet the needs of the industries, thereby increasing Malaysia's competitiveness in the global economy. PSA's initiatives in establishing the Advisory Board, which comprises CEOs of reputable companies has resulted not only in harnessing the above advantage but has also paved the way for its students and lecturers to receive relevant industrial training. 2005 has also witnessed PSA moving into the Asian region by establishing stronger ties with Shenzhen Polytechnic of China, which is anticipated to mark the beginning of a potential exchange programme.

Teamwork is the ability to work together toward a common vision. The ability to direct individual accomplishments toward organisational objectives. It is the fuel that allows common people to obtain uncommon results.

- Andrew Carnegie -
